Dear Parents + Sister:-

I arrived in Framingham, Friday and believe me its some place compared to Danbury N.H.

Its a fair sized city and lot of people and we can enjoy ourselves.

We won't start drilling until Monday - now we are fixing things up, and getting our stuff together.

I think we will stay here until about the middle of August then we might go South to South Carolina, or Georgia or Texas or Tennessee.

You know the regulars are over in France and we have to take their places here in the forts where they came from until the war is over.

I'm broke again when I went to Lowell I spent all

my money and I saved ten dollars

Well I'll close now hoping
to hear from you soon I remain
your son.
