ON ACTIVE SERVICE
WITH THE
AMERICAN EXPEDITIONARY FORCE

June 20 1917

Dear Folks:-

No doubt you are wondering why I'm not writing but we have been expecting to move any day and I thought I would wait until we got to another town so finally I got a little time off to write a few lines.

We have been relieved and are in many ways behind the lines taken it easy and I heard that this

we will have a good long rest way in back of the lines with nothing to worry over.

It didn't surprise me any to hear that some Kessler is over here in France it's a wonder he didn't come over sooner.

I suppose you are reading

them again like meeting a long
lost brother or something like that
and I heard that my old captain
is fighting where the big drive is
on and he is a game old man
I'll bet he is giving the Boche hell.
Well I'll have to love now, I
hope you send what I asked for
in the last letters.

Answer sorry I send my best
regards to you all also to the
people around.

From your loving son
who is always with you of you

Send me the Brooklyn Daily Eagle.

50

how the Americans are kicking
the stuffing out of the Germans
well believe me the old Hun is
losing courage he is afraid to
fight now, he won't be anything
left of them pretty soon.

The American has proven
a better man than the German.
All the German is good for is
in pulling the "Kamrad" stuff
but the Americans give them a
good one or a knife for it.

have had wonderful
weather for about a month but
it has started to rain again
and it looks as though it
won't ever going to let up.

Two of my friends were
killed the other day but they
belonged to another outfit.

I know several fellows that
used to be in the old company and
believe me it seemed good to see
